The secret slice

Tips to reduce the tears

- Chill onion for 30 minutes.
- Use a sharp chef's knife; 8-12' blade.
- Put a damp towel beneath cutting board to keep it steady.
- Start at top, cutting root end last.
- Embrace it and get a good cry in.

How to Cut an Onion

Step 1

Cut off the top/stem of the onion. Peel off the outer layers of skin. Dispose of skin and trim root end if necessary. Make sure not to contaminate the cutting surface and clean the knife before proceeding.

Step 2

To dice, cut the whole peeled onion in half, from root end to stem end.

Step 3

Lay each half cut side down on cutting board. Make multiple, evenly spaced cuts from root end to stem end of onion, being careful not to cut through the root end. Adjust the space between each cut to obtain the desired dice size.

Step 4

Hold the onion together and make horizontal cuts parallel to the cutting surface. Again, be sure to leave the root end intact.

Step 5

Make multiple cuts across the onion, adjusting the number of slices for desired dice size. Dispose of the hard root end.

Step 6

Separate onion pieces. Add to recipe for layers of flavor.

Tips for Cutting an Onion with Tearing:

When an onion is pierced, a chemical reaction takes place, releasing sulfur compounds. These compounds may irritate the eyes and cause tearing.

To reduce tearing:

- Chill onion about 30 minutes before cutting.
- Always use a sharp knife.
- Begin cutting at the top, leave root end uncut as long as possible. This end contains the highest concentration of sulfur compounds.

For Cutting Onion Slices and Rings

For slices or wedges, cut whole peeled onion in half from stem to root end. Make evenly spaced cuts along the grain.

For onion rings, place a whole peeled onion on its side and slice crosswise every 1/4 to 1/2 inch. Separate each slice into individual rings. Save the centers to dice for use in other recipes.

Best Onion Ring Tips

Breaded onions should be placed on a tray in the refrigerator or freezer for at least 10-15 minutes before cooking to allow the breading to adhere to the onion. Note: the finer the bread crumbs the better they will stay on the rings.

Use oil with a high smoke point like canola, sunflower, safflower, or peanut. Do not reuse oil.

Watch the oil temperature. Aim for 375°F.

Too low: the water will not vaporize and will fail to create the necessary pressure to block the oil, thus resulting in greasy onion rings.

Too high: you will have dried out, overcooked or burnt onion rings

Best Ever Onion Rings

3 large onions (about 9 to 11 ounces each), peeled and trimmed
1 cup flour
1 teaspoon paprika
3/4 teaspoon salt
1/4 teaspoon pepper
1 cup regular or non-alcoholic beer
Canola oil

Cut onions crosswise into 1/2 inch slices; separate into rings. Refrigerate broken or end pieces for other uses. Combine flour, paprika, salt and pepper in large bowl. Stir in beer, beating with wire whisk until foam is gone.

Baked version: Toss onion rings in batter. Transfer to plate, letting excess drip off as you transfer. Place about 1 tablespoon oil in large 12-inch nonstick skillet; heat on medium high. Add about half the onion rings to the heated skillet in a single layer. Cook about 1-1/2 minutes on each side or until lightly golden in color. Repeat with remaining onions. Arrange all onions in a single layer on ungreased, shallow baking pans or cookie sheets. Bake at 425 degrees for 6 minutes, or until crisp. Makes 6 servings.

Per serving: About 155 calories, 4g protein, 30g carbohydrate, 3 g fat, 0 mg cholesterol, 3 g fiber, 5 mg sodium.

Deep fried version: Heat at least 2-inches oil in deep fryer for 5 to 10 minutes or according to fryer directions. (If fryer has a temperature adjustment, set it at 375 degrees and heat until light goes out.) Drop batter coated onion rings into hot oil (about 10 to 20 at a time). Fry 2 to 4 minutes or until crisp. Drain on paper towels before serving. Makes 6 servings.

Per serving: About 242 calories, 4g protein, 29g carbohydrate, 13g fat, 3 g fiber, 0mg cholesterol, 5 mg sodium.

Variation: Add 2 teaspoons each of dried thyme, chili powder and ground cumin to batter. After baking or frying, sprinkle crispy rings with additional chili powder, ground cumin or bottled pepper blends, if desired.

- 1 medium onion, cut into paper-thin wedges
- 1/4 cup Parmesan cheese, grated

Place a ribbon of pizza sauce and a single layer of onions over cheese mixture.
